Attn. Mr. Jess Derouen  
Re: Case # 2013-00332

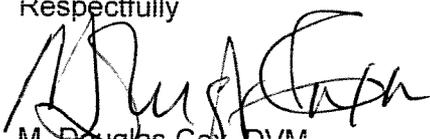

RECEIVED  
OCT -4 2013  
PUBLIC SERVICE  
COMMISSION

I wish to express my opposition to the announced intentions of AmeriGas to discontinue our current gas service and replace it with individual residential tanks. The following points should be considered.

- Our system is less than 6 years old and is performing well.
- To my knowledge there have been no complaints regarding our present system.
- Common sense shows the proposed changes will not increase efficiency and will be less than esthetically pleasing.
- We have all paid significant tap on fees (\$500-1000) to receive the current gas supply.
- The neighborhood should not be penalized with increasing gas prices for the benefit of the parent company
- We would expect that an environmental study would be needed before any metal tanks containing gas could be buried.

I would appreciate being notified of any public hearing. Thank you for your consideration.

Respectfully

M. Douglas Cox, DVM
